POLICY

The Sabah Forestry Department's policy statements are:

- Sugut SFM Project will be managed under the forest management practices and committed with the Forest Stewardship Council (FSC) Principles in conformity with the existing State forest policies, environmental policies, legislation and regulations;
- The Sabah Forestry Department (SFD) is committed to support the effort to combat global warming in Sugut SFM Project through restoration activities and the establishment of intensively managed planted areas that will sequester carbon and produce carbon credits in accordance to CCB standards;
- The SFD shall maintained and enhanced areas identified as 'high conservation value forests (HCVF) for the protection of biodiversity, wilderness, soil and water resources;
- The SFD shall consult with local stakeholders in its efforts to manage the project area.
- The SFD shall optimized economic returns to the State on a long-term basis by optimizing and utilization and efficient use of the resources while maintaining conservation and environmental values, and providing social benefits. Social benefits will include job opportunities and socio-economic development activities, particularly for the local communities who resides adjacent to the forest reserve.
- The SFD shall strived to protect its forest resource from fire, illegal felling and forest encroachment and to enhance the safe, sound and responsible management of the forest for this and future generation.

1.0 INTRODUCTION

Social welfare plays a pivotal role in the Sustainable Forest Management (SFM) Project as human capacity and manpower has always been viewed as an asset towards a Well-Managed Forest. The SFM Project has always been viewed as a joint venture or stakeholder engagement to ensure related indicators as stated in Forest Management Plan(FMP) successfully achieved.

The TSFR, SCA SFM Project social aspect encompasses socio-economic, safety, grievance, procedure providing fair compensation, customs, traditions and relevant laws and regulations. The aforementioned items however does not do justice to the depth and other cross cutting factors that make the social component a unique component. Therefore, the above list and the contents of these documents should not be treated as a final complete document and is subjected to further revision as and when required.

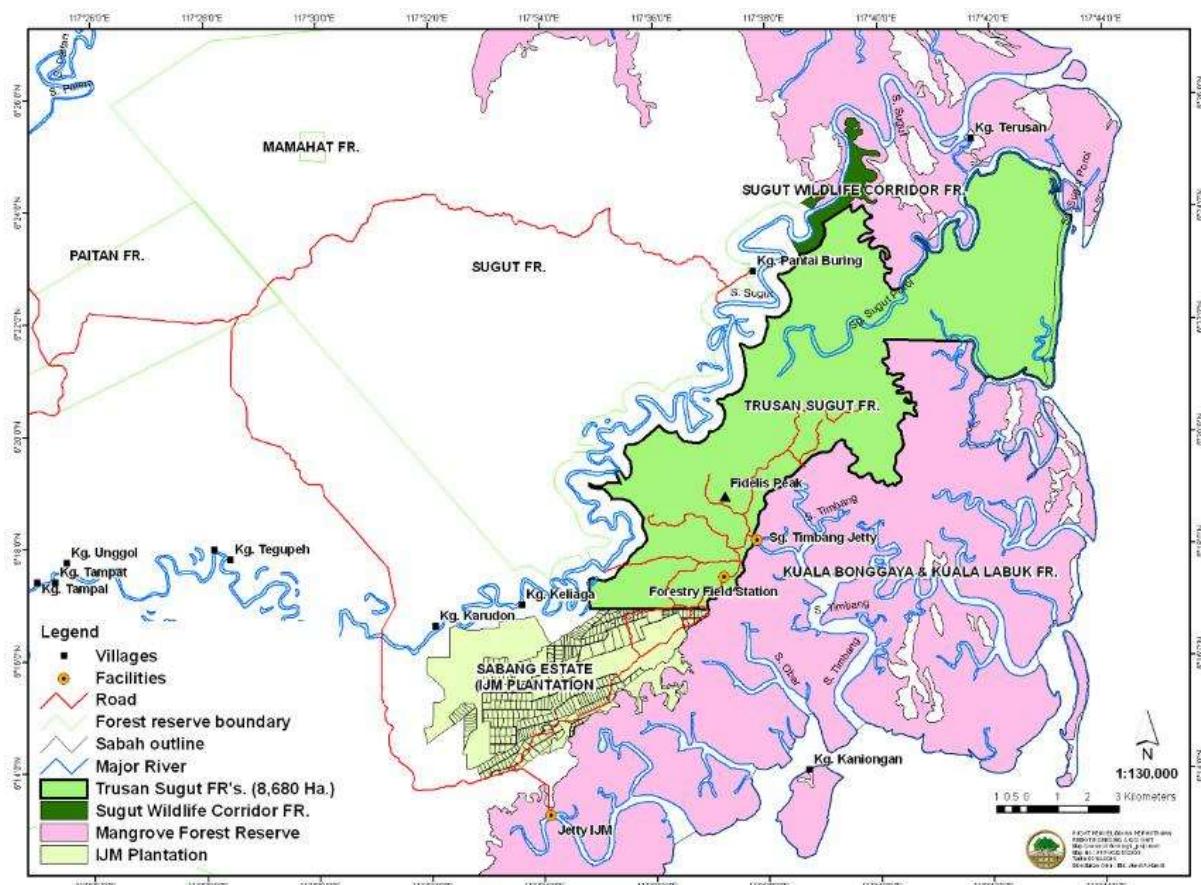

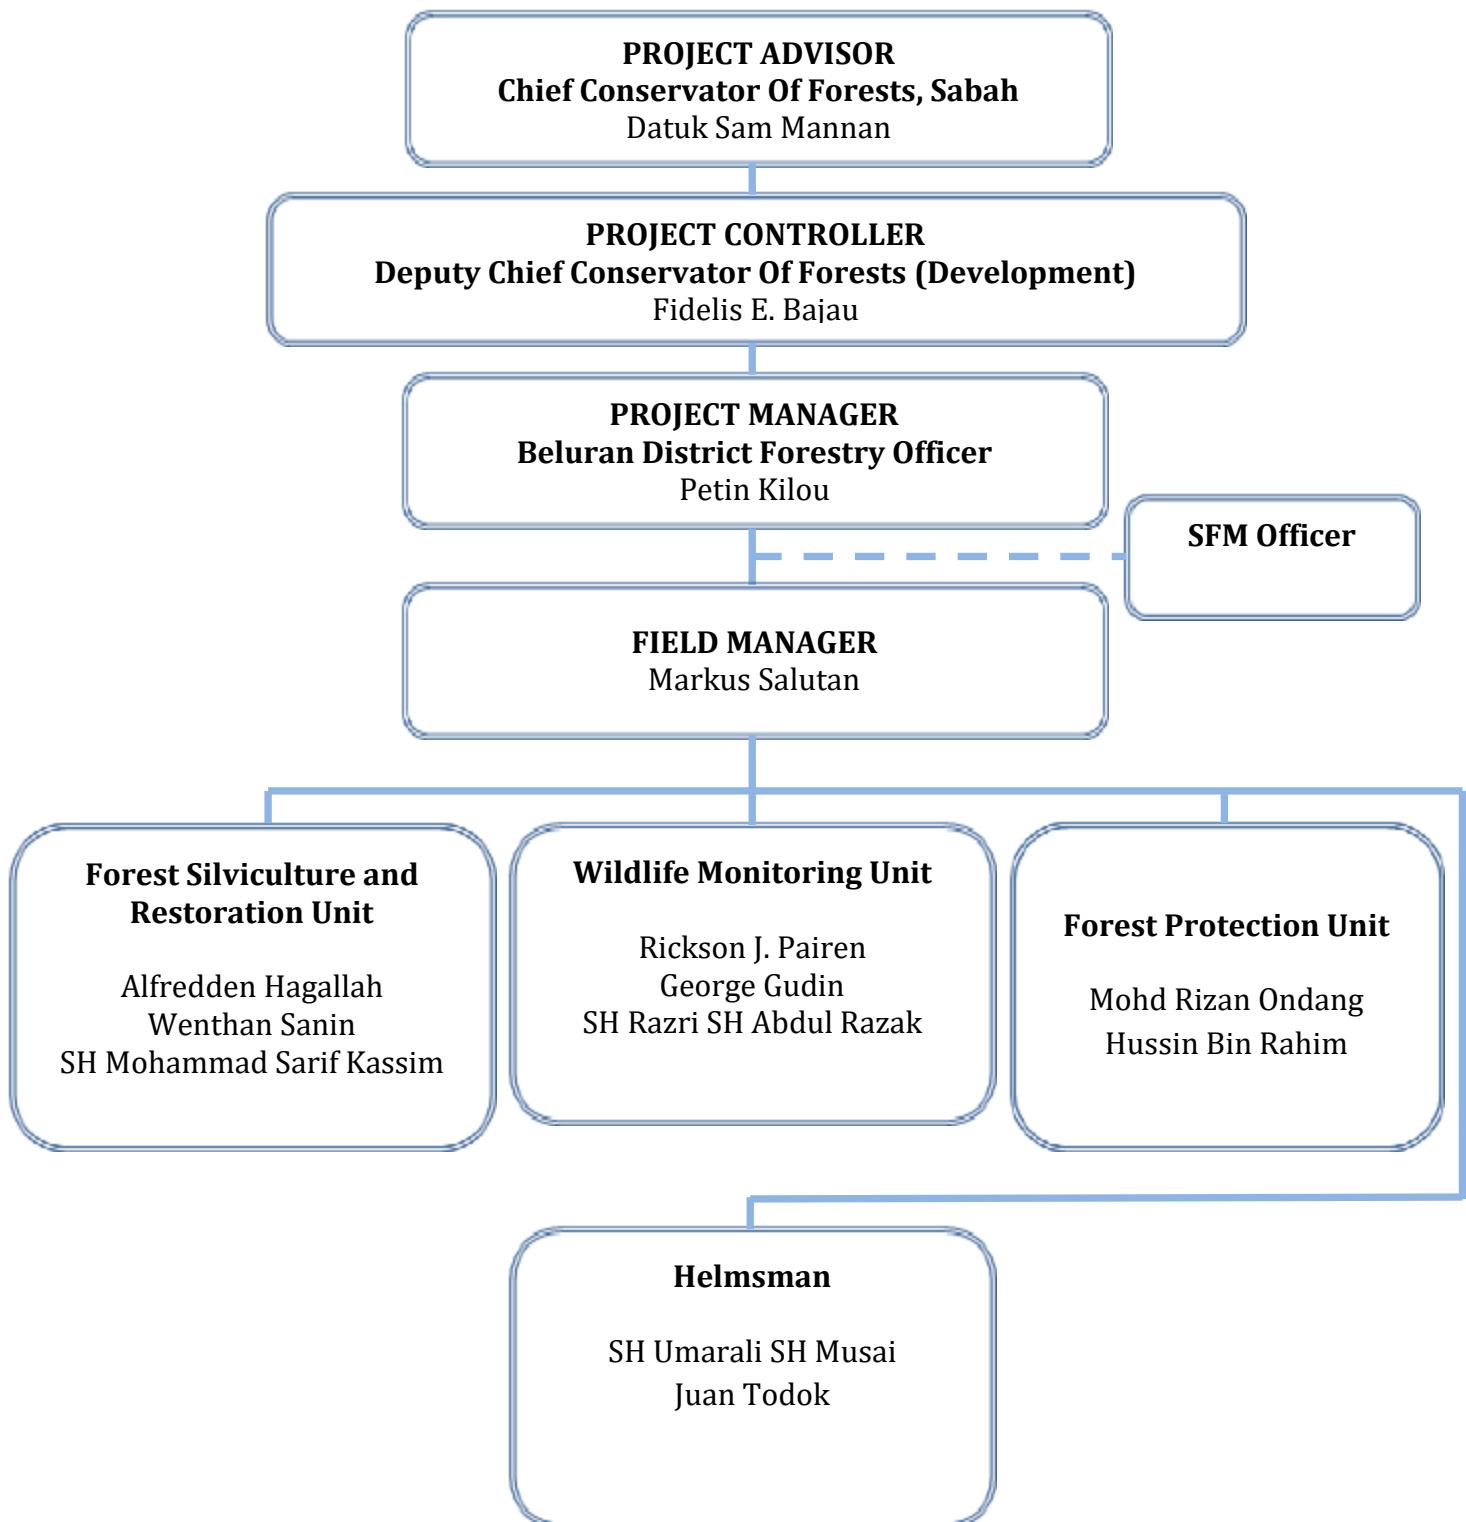

Figure 1 The extent of Trusan Sugut Forest Reserve, the adjacent land-uses, and the access road to the IJM jetty and the field station are shown here. The newly gazetted Sugut Wildlife Corridor FR and other adjacent forest reserves, along with Trusan Sugut FR, forms the larger Sugut Conservation Area.

2.0 OBJECTIVES

This document serves as a guideline and reference on the **TSFR, SCA SFM Project** stand on handling social issues. It also serves as a management plan to ensure that the social impacts are prioritized and well taken care of in SFM Project.

This guide aims to standardize grievance handling procedures as well as other social related issues to ensure that a fair, open and transparent method of handling social concerns of all stakeholders is adopted throughout the project area.

3.0 ORGANIZATION CHART (As at 30 June 2016)

4.0 SOCIAL IMPACT ASSESSMENT

The social impact assessment need not have to be so intense as compared to a newly opening or developing SFM Project. Nevertheless, a social impact assessment (SIA) has to be carried out by interviewing the stakeholders (Social Basedline Study, 2015) that are related directly or indirectly to the SFM Project operations as per FCP Interim Standard for Forest Management Certification in Malaysia, especially Principle 4 Criterion 4.4. SFM Project has to produce a list of stakeholders inclusive of government sectors, NGO, communities, smallholders etc, then invite or participate for a consultation to draw out the social impacts from their point of view. The stakeholder participation/invitation need not have to be a fixed day. It can be any day depending on the convenient time of the stakeholder and the forest management. To study the impact, it is not necessary to bring the whole residents of the related communities, but the related parties can select a representative who can speak on behalf of them.

As a guideline, the existing social impacts are meant for improvement of stakeholders' needs depending on the mandatory regulations and consideration judgment within the policies, principles and procedures of Sabah Forestry Department.

4.1 Internal Stakeholder (SCA SFM Project Personnel)

For internal stakeholder, namely TSFR, SCA SFM Project personnel, for those have any related social issues from their point of view or grievances which are might triggered as social impacts are allowable to be delivered by following the right procedures (See SOP Procedure-Communication Dispute, Document No: SFD/SGTSFM/SOP-007, **Lampiran 2: Aliran Penyelesaian Aduan Masalah Kakitangan Jabatan (Projek SFM SCA)**). The grievance procedures as a guideline which is enables for them to deliver their grievances and to be discussed by the top management. Each personnel have their own representative (Workers Representative) by following their designation grade levels. Based on the procedures, the personnel have their right to deliver their grievances either to the District Forestry Office or to the appointed workers representative.

The related social aspects for TSFR, SCA SFM Project personnel namely, housing facilities, wage budget, and other necessities have been included and systematically monitor via **Annual Work Plan (AWP), Quarterly Reports and Compliance Report**.

4.2 External Stakeholder and Communities

The external stakeholders and communities representatives including the System Tagal Committee are invited to participate any consultation meetings, talks and training held by TSFR, SCA SFM Project. The results or social impacts gathered from the consultation meeting have been summarised (**Appendix 6 and 7**). Whenever for those invited in such meeting, rest house or dormitory, transportation equipped with water supply and electricity and adequate foods to be prepared by forest management. If there is any grievance occurs, it can be delivered by following the right procedures (See SOP Procedure-Communication Dispute, Document No: SFD/SGTSFM/SOP-007, **Lampiran 1: Carta Aliran Penyelesaian Aduan Masalah Stakeholder dan Komuniti Bagi Project SFM Sugut.**

4.3 Social Baseline Study Methodology Summary

For detail information, kindly refer to the Social Basedline Study, Corpuz R (2015).

4.4 Summary of Stakeholder and Communities Consultation related to their basic need as stated in Social Baseline Study

The social baseline study had indicated that the villagers had traditionally used the forest for a source of wood for housing and boat construction. However, based on consultation meeting, they are aware that in order to preserve the forest for their future generations, their commitment and engagement to maintain the entire forest together is indeed essential.

They are also aware of the related policies or principle of the state government in terms of forest protection. In addition, the communities representatives indicated that they were no longer dependent on the forest for such resources. Materials for housing and boat construction were sawn timber or plywood purchased from the towns. Besides, they are very supportive of the FSC certification and conservation effort by TSFR SCA SFM Project and had instituted effort to establish the Tagal System for protection of stretches of rivers for sustainability of its sport fishing programme for tourists.

5.0 ADHERENCE TO STATE, NATIONAL LAWS AND INTERNATIONAL REGULATIONS

Sabah Forestry Department is committed to adhere to all appropriate National Laws and Regulations as prescribed in the country and International Laws or Regulations which are related to FCP Interim Standard for Forest Management Certification in Malaysia, especially Principle 1: Compliance with laws and FSC Principles. For Social Management, the following Malaysian and International laws and regulations are identified and adhere to but not limited to:

1. Forest Enactment, 1969
2. Human Rights Commission of Malaysia Act 1999
3. State Cultural Heritage (Conservation) Enactment, 1997
4. Land ordinance (Sabah Cap. 68)
5. Employment Act, 1995
6. Employees Provident Fund Act 1991
7. Employees' Social Security Act 1969
8. Workmen's Compensation Act 1952
9. Workmen's Compensation Act 1923 & Workmen's Compensation Rules 1924
10. Occupational Safety and Health Act, 1994
11. Labour Ordinance (Sabah Cap.67) Amendment 2005
12. Native Courts Enactment 1992
13. Native Court (Native Customary Laws) Rules, 1995
14. Interpretation (Definition of Native) Ordinance, 1952
15. The International Labour Organization's Fundamental Conventions
16. ILO Declaration on Fundamental Principles and Rights at Work 1998
17. United Nations Declaration of the Rights of Indigenous People 2007
18. ILO Code of Practice of Safety and Health in Forestry Work

6.0 GENERAL WORK/LABOUR CONDITION

6.1 Employment of Children and Young Persons

Sabah Forestry Department does **NOT** engage in or support the use of child labor below 18 years as per Children and Young Persons (Employment) Act 1966 and also related to FCP Interim Standard for Forest Management Certification in Malaysia, especially Principle 4, Criterion 4.2, Indicator 4.2.7.

6.2 Equal Opportunity

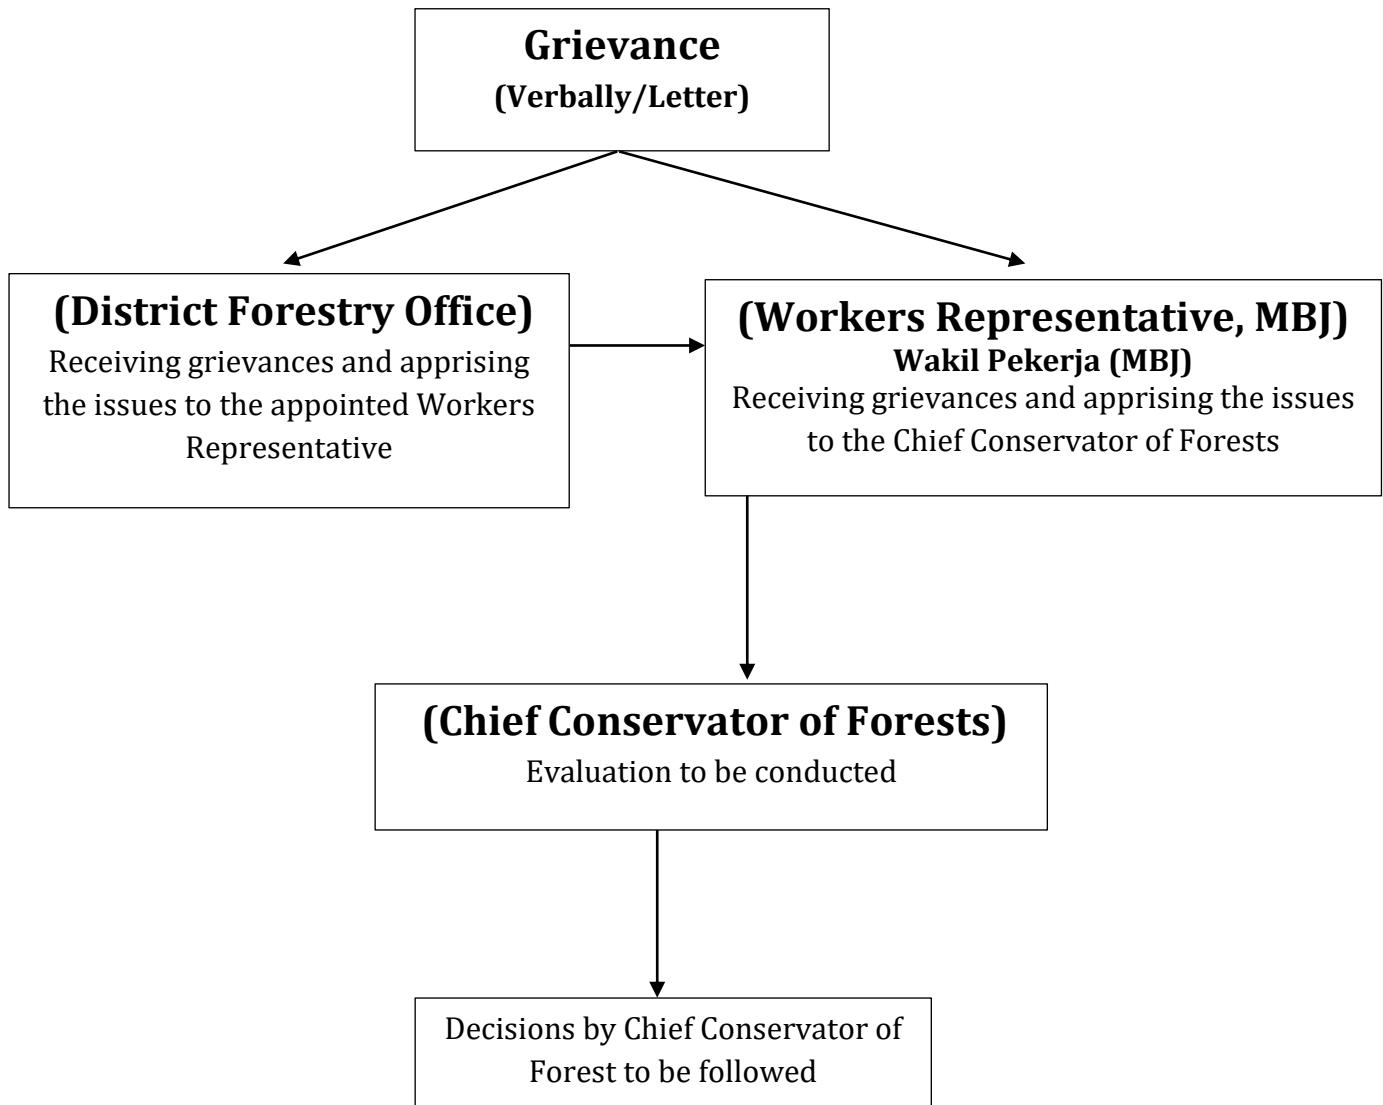

The forest management provides equal opportunity employer that does not discriminate based on race, religion, disability, political affiliation, or age. In addition, forest management personnel as well as contractor workers are consist of qualified members of the local communities to be involve in the daily or periodic operations. This is related to Principle 4 Criterion 4.1.

6.3 Minimum Facilities and Amenities

In order to ensure smooth and effective forest operations, minimum facilities and amenities have been prepared namely office, housing/cabin, water supply, transportation, etc. which were systematically monitor via **Annual Work Plan (AWP)**, **Quarterly Reports and Compliance Report**.

7.0 GRIEVANCE FLOWCHART (SCA SFM Project Personnel)

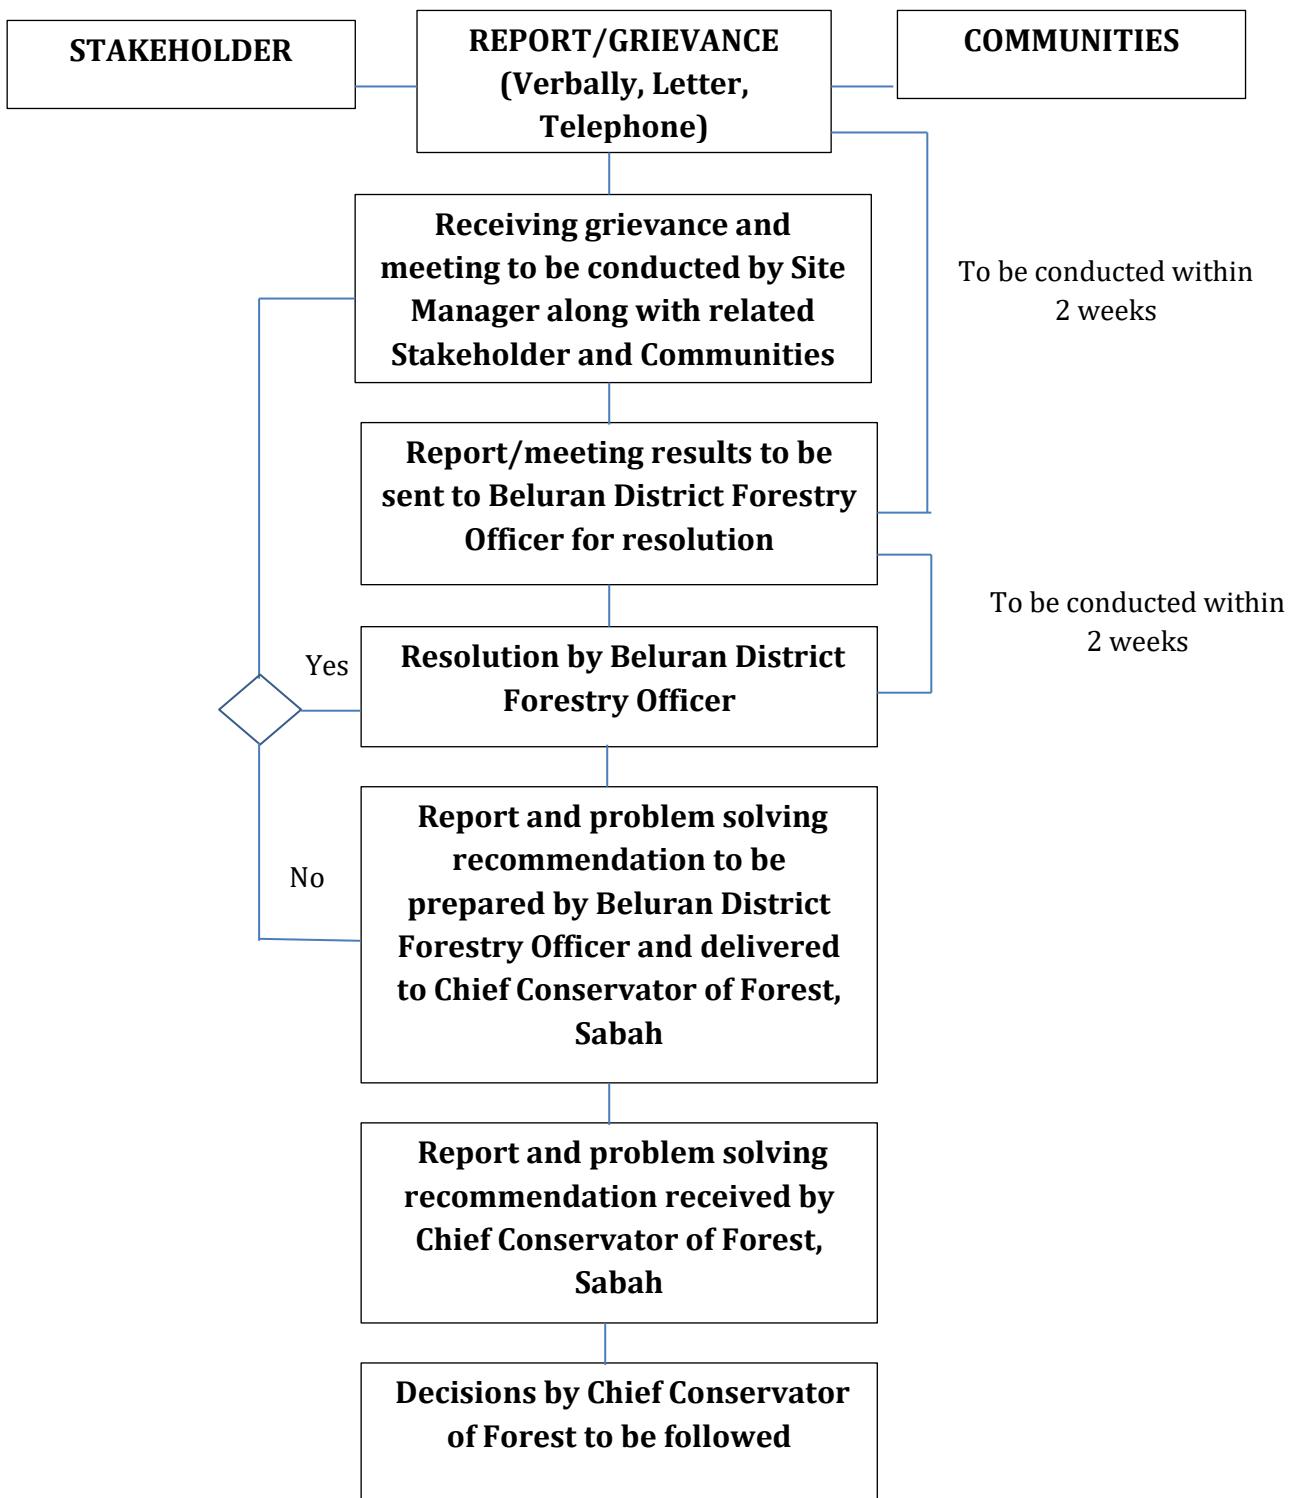

Related to FCP Interim Standard for Forest Management Certification in Malaysia, especially Principle 4 Criterion 4.3

*The Grievance flowchart above is also available in *Bahasa Malaysia*. For detail information, kindly refer to SOP Procedure-Communication Dispute, Document No: SFD/SGTSFM/SOP-007.

8.0 GRIEVANCE FLOWCHART (External Stakeholder and Communities)

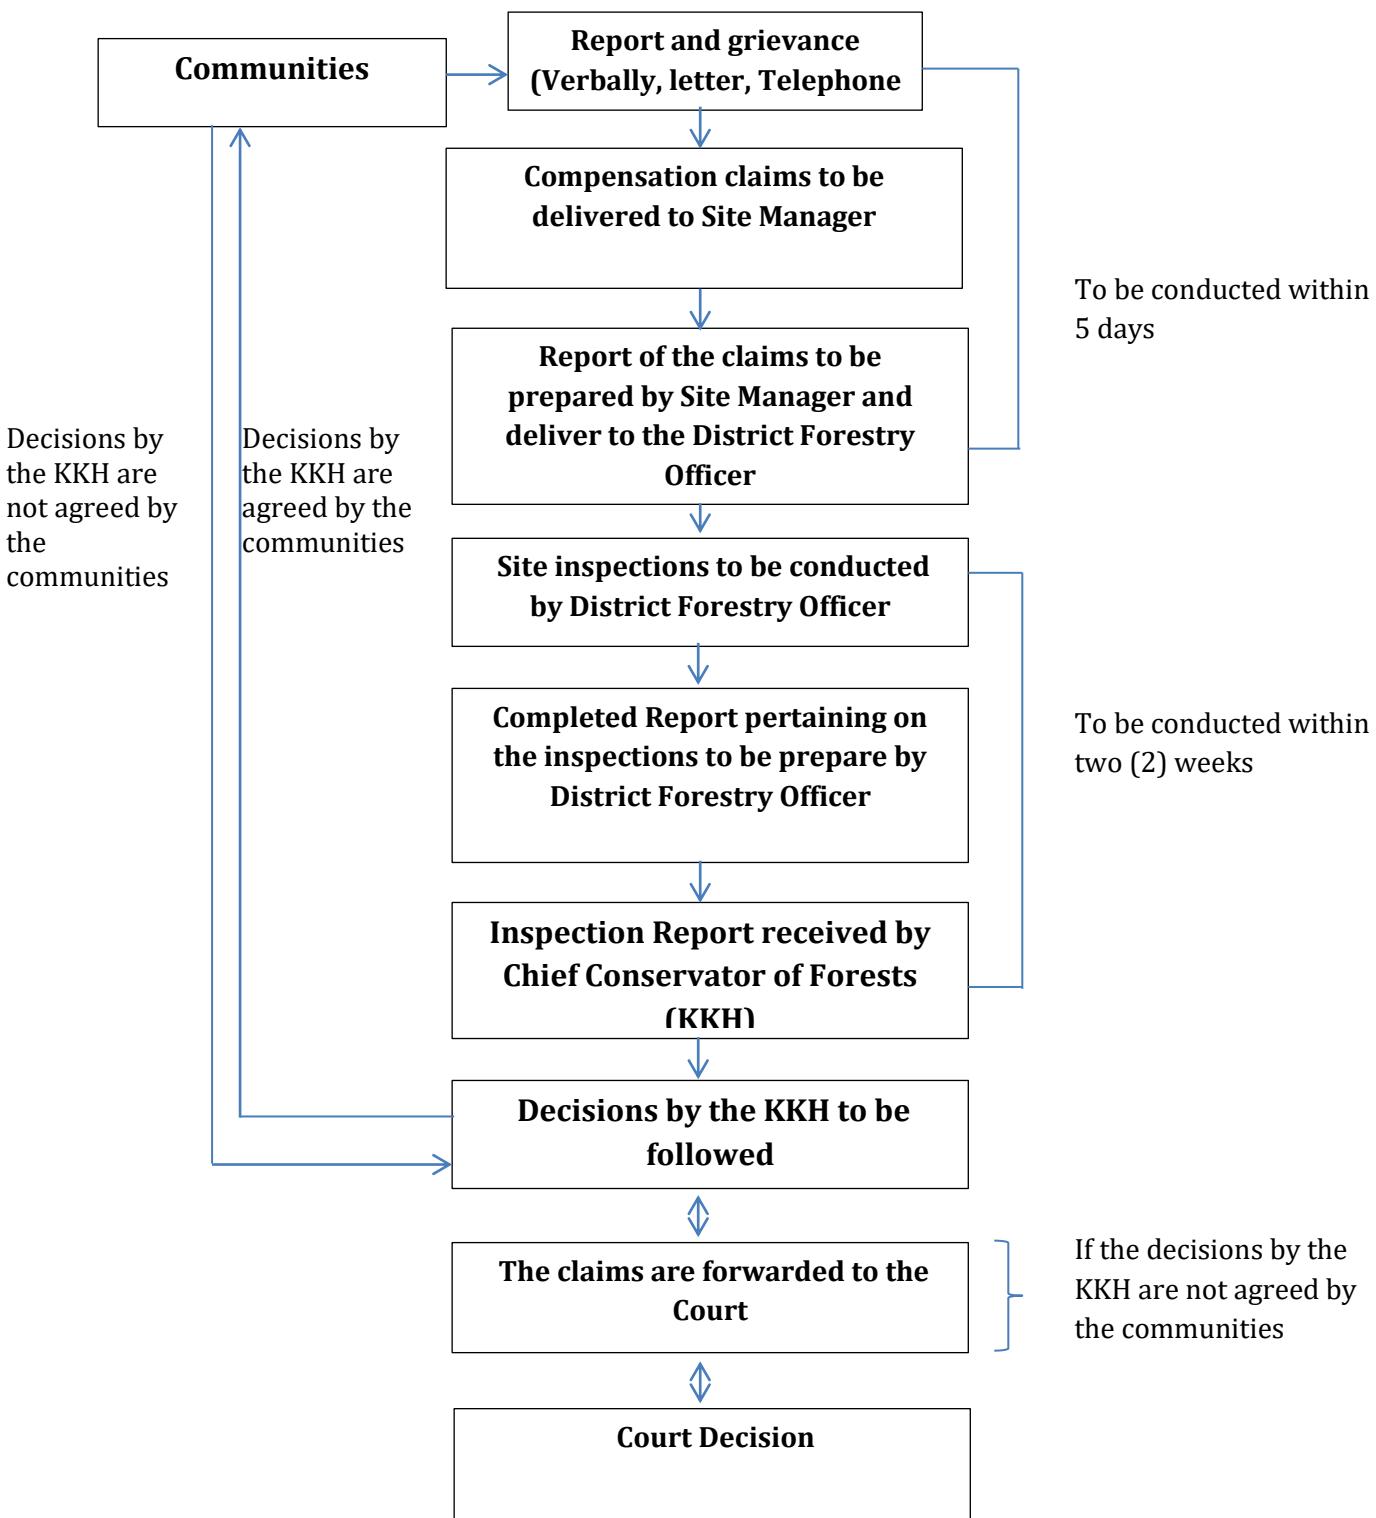

Related to FCP Interim Standard for Forest Management Certification in Malaysia, especially Principle 4 Criterion 4.3

*The Grievance flowchart above is also available in *Bahasa Malaysia*. For detail information, kindly refer to SOP Procedure-Communication Dispute, Document No: SFD/SGTSFM/SOP-007.

8.0 PROVIDING FAIR COMPENSATION FLOWCHART

Related to FCP Interim Standard for Forest Management Certification in Malaysia, especially Principle 4 Criterion 4.5, Indicator 4.5.3

*The Grievance flowchart above is also available in *Bahasa Malaysia*. For detail information, kindly refer to SOP Procedure-Penilaian Terhadap Tuntutan Pampasan (Komuniti), Document No: SFD/SGTSFM/SOP-016.

9.0 CUSTOMS AND CULTURES

Related to FCP Interim Standard for Forest Management Certification in Malaysia, especially Principle 3, Principle 4 and Principle 9. Adequate understanding of culture, political condition, etc. is vital in order to not provoke any sensitive issues that will cause implementation to plunge and create an uneasy atmosphere.

It will also be beneficial for the Site Manager or anyone in the Management to learn more about the culture and local customs of related stakeholder and communities. This can promote better understanding of the culture of the people and assured of smooth implementation as the related stakeholder and communities do not feel alienated.

10.0 CONCLUSION

In conclusion, the various components of Social aspects have been touched upon in this management plan with the various outlines on handling these impacts. There is great emphasis in maintaining an open, transparent and efficient system in handling grievances, compensation issues and Social Impact Assessments. In the same vein, there is a real need of performing a Social Impact Assessment to identify social impacts and mitigate impacts before they become grievances in the near future.

TSFR, SCA, SFM Project's Social Impact Assessment is subject to further revision as and when necessary to suit towards the social climate and conditions and legal requirements that change from time to time.
